ICJS
Interoperable Criminal Justice System

Under the guidance of e-Committee of the Hon'ble Supreme Court of India, ICJS has been collectively conceptualized by the Ministry of Home Affairs, Ministry of Information Technology and Department of Justice to make the Justice Delivery System speedy and transparent.

- One Data Once Entry
- PAN India Search – Cross Domains
- Mini Statement of a Case
- Criminal Network Visualization
- Antecedent Verification
- Dashboards for each Domain
- Data as a Service
- Investigation & Monitoring Tools

- Uniform and Centralized Platform for all Stakeholders
- Unified Information required for adjudication of any criminal offense PAN India
- Online Crime Record verification
- Offence wise national database
- Proactive and Smart Policing
- Data Integrity across the stakeholders

Value added services like Criminal Network, Mini Statement, NDSO, POCSO, ITSSO, NIDAAN and Traffickers etc.

ICJS

About Domain Applications

ICJS

Police	Courts	ePrisons	Prosecution	Forensics
• MHA and State (Home) • Core Application Software developed by Third Party • 7 States are using Non-CAS	• Justice Deptt. and Courts • CIS & eCourt Software is being used • Development by CIS NIC Pune Team	• MHA and State Prison Deptt. • Existing Central e-prison Software being used.	• MHA and State (Law) • Software developed by ICJS-NIC	• MHA and State (Home Deptt.) • Software developed by ICJS-NIC

ICJS

Additional Domain Applications

- Arms License Issuance System (ALIS)
- Vahan / Sarathi*
- Missing Child Tracking*
- Passport / IVFRT*
- Medico Legal cases (eHospital)*
- Supreme Court of India and High Court*
- Any other domain MHA desires

Concept of ICJS

Pan India Search

Search across the pillars data of CCTNS, e-Courts, e-Prisons, NIA etc. Search empowered by Phonetics and NLP

Pillar Analytics

Analyze the data of the individual pillars to understand the trends, patterns, anomalies etc. in the network

Exchange Data

Secured information exchange across the pillars through secured protocols facilitating data exchange without manual interventions

One data once entry

Core target of ICJS is to eliminate the manual entry of the person details and act as a facilitator to exchange the data across the pillars

Profiling

360 degree Profiling of the persons involved in various pillars and facility to tag or exchange the profile

ICJS

Interoperability

- Linking of primary ids of domain
- Data availability
- Consuming of data
- Completion of missing data among domains (Need based data access for completion of records)
- Services of one domain to other domains
- Alerts on various events in all the stakeholders
- Nationwide Searching of Centralized Data

(FIR, Court Cases, Inmates, Forensic, Prosecution)

ICJS

Domain Linking Services

Data linking Table in ICJS

- CJSID (Unique No);
- FIR No (For Police);
- CNR No (For Courts);
- PID No (For Prisons);
- CFL ID (Forensic);
- Prosec ID (Prosecution);
- Legal Aid ID (Legal Aid); and
- Any other domain (open ended)

Roles and Responsibility of the ICJS State Coordinators

- Deployment of APIs by the SI of Police Deptt
- Master Code mapping by Police and Prisons
- Accessibility of the APIs by SDC / NDC
- Data quality and its linkage
- Coordination with other stakeholders for testing
- Presentation / Demonstration / Training about ICJS
- Enhancement in data providing/consumption
- Interaction with the NIC/NICSI central team
